For bulk orders or B2B inquiries, email us: sales@robu.in

SKU: 766389

1. Speed(RPM):19000
2. Motor diameter: 6mm
3. Shaft diameter: 0.8mm
4. Shaft length: 4mm
5. Rated voltage: 1.5V-5V

Hi, How can I help you today?

For bulk orders or B2B inquiries, email us: sales@robu.in

SKU: 43848

1. Model: SG90
2. Weight: 9 gm
3. Operating voltage: 3.0V~ 7.2V
4. Servo Plug: JR
5. Stall torque @4.8V : 1.2kg-cm

Actuator	Typical unit price (India)	Impact strength	Stroke / behavior	Control & timing	Power	Good for AE tapping?
Flat coin vibrator (e.g. Flat 1034)	₹50–₹150. Small phone coin motors widely available. (Sharvie Electronics)	Low — vibration, not strong impulse	Very small oscillation; convert via lever/spring to make taps	PWM on MCU, very simple	~60–100 mA @ 3V	Good for light taps / excitation; cheapest option
Cylindrical / larger ERM vibrator	₹70–₹200 depending on size. (Robu)	Medium — stronger vibration, more torque	Small linear/rotational amplitude; better	PWM, simple drive	50–200 mA	Better than coin for larger taps; low cost

			momentum than coin			
Micro-servo (e.g. SG90)	₹70–₹140 (hobby grade). Precise angular control. (QuartzComponents)	Medium — depends on lever/cam design (can amplify force)	Large controllable stroke (degree rotation)	PWM position control (precise)	~200–500 mA peaks	Good if you need controlled tap timing/position — needs mech. linkage
Mini solenoid (5 V)	₹300–₹2000 (small types ~₹300–600 online). (MG Super Labs)	High — clear percussive impact	Direct linear stroke; repeatable	On/off via MOSFET; very repeatable	0.5–1 A (short duty)	Best for strong, repeatable taps; higher cost & driver required

Vibratory Motors

Flat 1034 Mobile Phone Vibrator Motor

★★★★★ (6 customer reviews)

SKU: 30624

- 1. Voltage Range: DC 2.5–4V.
- 2. Motor Diameter: 10 mm.
- 3. Motor Thickness: 3.4 mm.
- 4. Min. Rated Speed: 9000RPM
- 5. Max. Rated Current: 90mA

₹ 28.00 (Incl. GST)
